

## MAVA 350 MIL

MAVA350 MIL is designed for immediate personnel and protective gear decontamination in chemical accidents and CBRN related incidents. MAVA350 MIL includes all required components to provide rapid decontamination operation in field circumstances. The users are typically Defence Forces, Fire Brigades, Industrial Plants, Civil Defence operators and other First Responders.

MAVA350 MIL is a complete, modular, light, durable, portable and easy to use system. It is easy to transport and it can be built up in ten minutes.

The following components are included in MAVA 350 MIL Decontamination System:

- MAVA350 Decontamination Shower
- Water Heater (diesel operated)
- Waste water tank (500 l)
- Water pump (for waste water)
- Lightning
- Required accessories like tubing etc.

Technical Features	
Dimensions	2200*1600*1600 mm
Total weight	180 kg
Water usage	36 l/min at 4 bars pressure
Operating pressure	3-8 bars
Operating temperature	-25C°...+40C°
Main metal parts	Aluminium, stainless steel
Nozzles	7 pcs and hand shower
Options	Stretcher patient line
